1 I understand Government proposes that the pay of the Subordinate should be increased from Rs 60 to 80 at once and then to Rs 120 by annual increment of Rs 10. The last revision took place in 1902 when Chakratunga Pillay was Diwan. This proposal is a considerable step and will involve the Government in a heavy expenditure. The pay now drawn from Rs 60 to Rs 80. The present recommendation is spoken of well by Mr Yates and no doubt his individual attention to this important work will be a great help to the Government. and the Yates to state in their letters that the Supervisor was in the Rangaswami Iyengar's line. The Yates is an Englishman and I think I may it is very hard task to be mentioning in official letters the relationship of any officer, whom one is intended to reward or punish, to another high officer of Govt. I have too much respect for the Govt of Mysore to think that it will be influenced one way or the other by insinuations that such mention may naturally be thought to convey.

As regards the merits of the proposal the Second Councillor has so thoroughly gone into the case that it is superfluous for me to go over the same ground again.

But I might be permitted to make one or two general observations.

In the first place, I may mention that a grade from 60 to 100 & an annual increment of Rs 5 is rather an extravagant arrangement. In my office we have grades 30-45, 50-65 & 70-100. In the Secretariat the

MGCPB—20,000—1-11-04.

Serial No.

Grades are 70–100, 100–150 and so on. It will be seen that in none of these cases an office has an increment two-thirds of the initial pay. I think therefore that a grade of Rs 60–75 or Rs 50–75 with an annual increment of Rs 5 would be more logical.

On the same ground, I would make the Store Keeper's grade 30–40 with an annual increment of Rs 2 instead of Rs 35–40.

I have another reason for proposing the above changes and that is somewhat important: It is will be seen that the present scales of pay according to the Proposition statement are

Accountant ... 20

Accountant 15

Store Keeper ... 35 would be changed to 35–40

Supervisor 60 would be changed to 60–100

From Rs 25 to 35–40 is a big leap and from 40 to 60–100 is a bigger one still. I do not mean that the appointment of the Supervisor or the Store Keeper should always of course be

filled up by promotion in the office but if the Scales of pay flow in small in an office, the Subordinates have a great inducement to work well in hopes of Securing the next higher Grade and this is a very important consideration with office managers. at present, the men in the lower Grd are not in a position to hope for any preferment.

It is therefore my respectful opinion that the Grades should be

Supervisor 50-5-75
Store Keeper 30-2-40

If any Special merit may be rewarded by personal allowances but I do not think there is any such question to be considered here. We do not require men of any great talent or Education for the work of the Supervisor or Store keeper

In other respects I entirely agree with the 2d Councillor.

TO,

SIR P. N. KRISHNA MURTI ESQ. K. C.

DEWAN OF MYSORE

Honoured Sir,

The Superintendent has submitted a proposal for the re-organization of the Stamp Manufactory similar to the one proposed by Mr. Gopaliengar the Huzur Treasury Officer. Before disposing of the said proposal it is humbly prayed that the following may be taken into consideration:-

1 Itis simply a proposal asking Your esteemed Honor to deprive the just rights of poor old officials of long service and give them to another man simply because he happens to be the son of his father.

2 There is absolutely no foundation whatever and no real necessity has been shown for the said uncalled for proposal.

3 The respective work that each official has to discharge in the department has not been stated and the proposal is not appended with the work list.

4 There are two accountants one on Rs. 25/- in the stock branch and another on Rs. 20/- in the manufacturing branch. These two accountants have little or no work at all except that of posting two items in two registers that is "500" sheets. This is all the work that these accountants have to perform for the whole working day. Why should there be two separate accountants for this the Supervisor and the store-keeper might easily do this.
